

Angelus V-Series Training University

Specialized Machine Training

PneumaticScaleAngelus is proud to operate a Seamer Training University to help customers achieve the best performance and longest life from our equipment. These one week classes provide hands on instruction and are taught at our Akron, Ohio training facility by PMMI Certified Instructors. Our facility has over 100 years' experience combined working with can seamers. Our goal is to provide the best education possible and develop a long term rapport with our students that enhance our working relationship.

Angelus V-Series Training Class

Standard Class

Each 5 day session is devoted specifically to the Angelus V-Series line of Seamers. Students participate in lectures, examine cut-away component units and receive plenty of reference materials along with "hands-on" training. Classroom topics include basic settings, adjustments, general maintenance, and production of Quality Double Seams. Question and answer sessions are always an important part of the daily activity.

*At this time an Advanced Class for the Angelus V-Series is not offered.

Additional Class Information

- \$2,500 / person
- Classes run Monday - Friday. Friday is a half day to accommodate your travel home.
- A catered lunch will be provided Monday - Thursday.

Registration Information

- Classes fill up quickly.
- We will only accept written registrations. No verbal registrations will be accepted.
- Cancellations require a 3 week minimum advanced written notice.
- Translators can be provided in most cases for an additional fee.
